POLICY JUSTIFICATION

Brazil—AGM-84L Harpoon Block II Missiles

The Government of Brazil has requested a possible sale of 16 AGM-84L Harpoon Block II Missiles, 4 CATM-84L Harpoon Block II Captive Air Training Missiles, containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$169 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for regional stability and economic progress in South America.

The Brazilian Air Force (BrAF) is in the process of modernizing and upgrading its Anti-Surface Warfare capability on its P-3 aircraft. The modernization will enhance the BrAF P-3's capabilities for its Counter-Transnational Organized Crime efforts, maritime border security, and protection of off-shore assets (fisheries, energy infrastructure, etc).

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri, and Delex Systems Incorporated in Vienna, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Brazil.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
